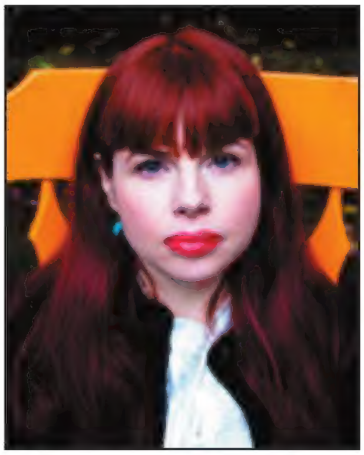
IN THIS ISSUE:
Women in Comics Month

This issue of ***PREVIEWS*** celebrates the many women who work within the comics industry and community, whether it is behind-the-scenes as publishers, editors, or translators, or in the creative spotlight as writers and artists. Throughout this issue you'll find our "Women in Comics" icon pointing out a deserving title featuring female creators or protagonists. You'll also find profiles of some of comics' most accomplished female creators in a special gallery on pages 274 and 275!



FS-1 — A WOMAN IN COMICS: THE KELLY SUE DECONNICK INTERVIEW

Writer Kelly Sue DeConnick got her start in comics translating Japanese and Korean comics for the American market, and moved on to the big time with her work on Marvel's Captain Marvel and her new Image Comics series, Pretty Deadly. Kelly Sue talks about her own career, and the role women play in the comics industry in this exclusive interview. And immediately following our interview with Kelly Sue, you'll find excerpts from interviews with four more talented female creators! It's all on the *FlipSide* of this very issue!

THE DOORWAY TO SUMMER

EDITOR'S *note*

If you're reading this note on the day this issue hits comic shops, then it's about a week until *Free Comic Book Day 2014*. And like all of the Free Comic Book Days before it, it should a super day for young and old alike! Hopefully you've all made plans to visit your favorite comic shop on Saturday, May 3rd to check out this year's crop of all-new — and FREE — comics. And plenty of shops will have special events built around FCBD14, including sales, special guests, and more. And be sure to take along someone who may be new to our hobby — be they sibling, distant relative, friend, or complete stranger — and share the fun of our great hobby!

I like to think of the month of May as the "Doorway to Summer"… that time of year when things are warming up, and the movies are getting bigger and bigger as the weeks roll along. It's going to be a super summer season for movies, and with lead-ins like *Captain America: The Winter Soldier* and *Amazing Spider-Man 2*, we're just heading into the best summer ever!

This month, we're celebrating "Women in Comics" in ***PREVIEWS***, and throughout this issue we have profiles, interviews, and backlist spotlights pointing out all of the great material created by women, for everyone. We've got an exclusive interview with Captain Marvel scribe Kelly Sue DeConnick on this issue's FlipSide, as well as mini-interviews with four more talented creators. And the celebration isn't just isolated to the pages of PREVIEWS. During the month of May you can head over to ***PREVIEWS*** **world.com** for more "Women in Comics" coverage, with more profiles and interviews than we could fit in this already *burgeoning* issue.

Did I mention we broke the 600-page barrier this month? Who else is gonna serve up 600-plus-pages of the coolest stuff on Earth to you for no extra cost? That's right. ***PREVIEWS***. We've got more DC Comics, more TOYS, more IMPORT TOYS, and more of everything you love… all in our biggest issue ever!

So, get ready for summer, because it's going to be a hot one, with great movies, conventions, comics, toys, and more! And don't forget to bring along the latest issue of ***PREVIEWS*** when you head off on vacation… great for beach reading and one of the best time-killers around!

Marty

INTERSTELLAR ADVENTURE AWAITS IN SKOTTIE YOUNG'S *ROCKET RACCOON*

■ MARVEL PREVIEWS, $3.99, 32 PAGES, PAGE 18

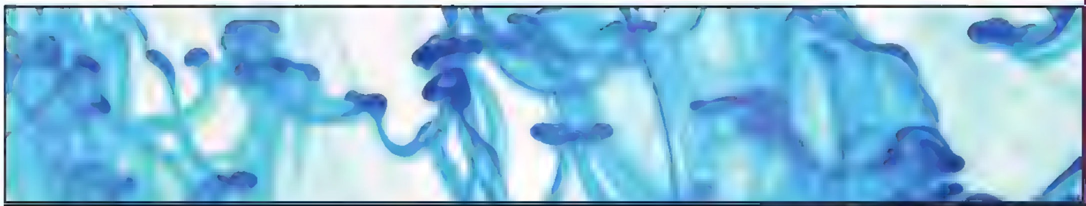
A new group of heroes make their theatrical debut this August in Marvel Studios' *Guardians of the Galaxy*, and one of the film's breakout stars gets a series of his own from one of comics' top artists in Marvel Comics' new *Rocket Raccoon* series!

Skottie Young, the artist of Marvel's acclaimed *Oz* adaptations and a series of fan-favorite variant covers, writes and draws this new series about the star-spanning raccoon. This is one raccoon that has made a life out of kicking butt, taking names, wooing women, and having fun. Don't let Rocket Raccoon's height or furry visage surprise you; Rocket Raccoon is a walking, talking, bundle of heroic energy, wrapped inside a raccoon's furry pelt. Now, Rocket Raccoon is on the run, the spaceways authorities on his tail, and his life of carefree fun could be coming to an end!

Young's artwork, which has thrilled Marvel Comics' fans for years with his inspired and unique interpretations of Marvel's characters, conveys a sense of adventure in *Rocket Raccoon*. Young also writes the series, so readers can expect an off-kilter, kinetic and thrilling story as only Skottie can present. Groot is there, too, plus the first issue has a variant cover by Mouse Guard's *David Petersen*!

Arriving on the cusp of the *Guardians of the Galaxy* film, *Rocket Raccoon* is the furriest, funniest, and Grootiest comic book on the market this summer. Pick up Skottie Young's *Rocket Raccoon* #1 this July!

THE FAN-FAVORITE COVER ARTIST WRITES AND DRAWS A NEW SOLO STARRING THE SUMMER'S BREAKOUT CHARACTER, ROCKET RACCOON!



Karl Urban starred as future lawman Judge Dredd in Lionsgate's 2012 film Dredd, and this summer Rebellion goes behind the scenes of the production with Dredd: The Illustrated Movie Script & Visuals. Collecting Alex Garland's script and Jock's storyboards and concept artwork, Dredd: The Illustrated Movie Script is more than just an adaptation of the film, it's a thorough exploration of the making of the acclaimed film!

HUMANITY RECLAIMS THE EARTH IN RICK REMENDER'S *LOW*

■ IMAGE COMICS, $3.99, 36PGS., PAGE 218

Driven into underwater cities by the climate and the sun's radiation, humanity has lived beneath the oceans for millennia while interstellar probes scour the galaxy for a new home. One of the probes crashes to Earth and discovers that the planet, abandoned to nature, appears to be once more inhabitable, and humans emerge from beneath to explore -- and perhaps reclaim -- the surface in Rick Remender and Greg Tocchini's new Image series, *Low!*

What will humans find when they reemerge into the sunlight and onto dry land? Do relics from civilization such as ruined cities still exist? What new flora and fauna have evolved to cope with the environment and the sun's harsh radiation? Is the Earth's surface safe for humanity, or has millennia in the controlled environment beneath the ocean made humanity weak?

Humanity emerges from the waves as Rick Remender presents the sci-fi epic of the year, Image Comics' *Low!*

DRIVEN BENEATH THE OCEAN, HUMANITY RETURNS TO THE SURFACE AFTER MILLENNIA, DISCOVERING A WORLD TURNED ALIEN IN THEIR ABSENCE.

WALTER SIMONSON UNLEASHES RAGNARÖK THIS SUMMER

The Vikings believed that the world was created from the body of the fallen giant Ymir, that the world would end the serpent Jormungandr consumed it after a battle with Thor, and the world would begin again for a new cycle of creation and destruction. Nordic skalds told this story in meadhalls, and they called it Ragnarok.

This summer, legendary creator Walter Simonson, no stranger to Norse mythology as seen in his long run on Marvel Comics' Thor, returns to the tales of the Norse gods in his new series from IDW Publishing, Ragnarök.

Gods and monsters battle at the end of time, and the fate of Earth — and the Nine Worlds of Norse myth — are in the balance. Monsters will rise, heroes will fall, worlds will break, legends will be born, and sagas will be sung. This is a truly mythic work from a truly mythic creator. This is the Twilight of the Gods.

And it begins this July in Walter Simonson's Ragnarök #1 from IDW Publishing. Don't miss it!

THE NEW 52 FUTURES END

Dear Retailers,

FUTURES END IS HERE!

Welcome to the future – FUTURES END, that is! This September, DC Entertainment takes you five years into the future of DC Comics – The New 52, where the heroes of the DC Universe face challenges unlike anything you've ever seen!

In this Previews catalogue, DCE is advance-soliciting forty-one FUTURES END titles for September. Each of them is available in two editions: a 3-D Motion Edition and a 2-D Standard Edition. The 3-D Motion cover images will shift to reveal something about the story inside and the situations the heroes of the DC Universe must face this month.

As this Previews issue goes to press, our artists are hard at work on the 3-D Motion covers so they can be sent to the printer. You'll get your first look at those covers as GIF files on the Diamond retailer page on May 27, and elsewhere as well, along with details on each issue's creative teams.

Most important, all orders for these issues – 3-D and 2-D versions – will be due on May 29. These titles will not be offered on Final Order Cutoff, and orders placed after May 29 cannot be guaranteed, so make sure you place your orders by that date!

As always, we thank you for your support!

Your futuristic Co-Publishers,

Jim Lee

Dan DiDio

It's been one year since a virus triggered junk DNA and people all over the world started changing. Becoming something else. Craving blood. It's been ten months since the word "vampire" stopped being something from old monster stories and Hollywood movies. It's been six months since our world and theirs erupted into war. It's been two months since an uneasy peace was signed. It's been one hour since that peace was shattered. The war is here again. The Vampire War. Our world will burn. Our world will bleed. When anyone can turn, when every street is a battlefield, there is nowhere to run.

GREG TOCCHINI

JULY 30

In the far distant future, the sun's premature expansion has irradiated Earth, sending humanity to the lowest depths of the seas, hidden within radiation-shielded cities, while probes scour the universe for inhabitable worlds to relocate to. After tens of thousands of years, a single probe returns, crashing on Earth's surface, a now-alien place no human has seen for many millennia.

Frequent collaborators **RICK REMENDER (BLACK SCIENCE, Uncanny Avengers)** and **GREG TOCCHINI (Last Days of American Crime, Uncanny X-Force)** dive into an aquatic sci-fi/fantasy tale following two teams from the last remaining cities undersea as they race to the most unexpected alien world of all—the surface of Earth.

Sideshow Productions

In an age where costumed superheroes are even more prevalent in comics as well as the big screen, there are still indie creators finding new ways to approach the genre and *Sparks* has managed to find a unique voice in both mediums.

Despite his lack of formal training, Sparks is a masked vigilante driven to remove crime from his city during the 1940's. Eager to win the fight against crime, Sparks teams up with several other costumed vigilantes along the way but, just when things couldn't get much better, they suddenly go horribly wrong. Sparks soon realizes that there is serious danger and a dark-side to the world of vigilantism which tears his life apart in and out of the mask. Though Sparks suddenly finds himself with few friends and allies left, he can't help but be a hero when he's needed most and he will stop at nothing to solve the super-powered conspiracy plaguing his town and eventually punish those responsible.

Sparks is a masked hero story wrapped in hard-boiled detective noir mystery. Now recently adapted into a feature motion picture of the same name, Christopher Folino (the creator of both the comic and movie) will show readers of the graphic novel and audiences of the film a fresh take on superheroes that rests comfortably between *Spider-Man* and *Sin City*.

EXTINCTION PARADE
VOLUME 01 TPB

Retail Price: $19.99

Writer: Max Brooks
Cover & Art: Raulo Caceres

MR, Color, 160 pages

Optioned for Television by Legendary Pictures!

ABOUT: The best-selling Zombie writer in history finally unleashes an all-new horror epic! Be ready for the summer's biggest graphic novel event as millions of zombie fans come looking for the collected first chapter of MAX BROOKS' EXTINCTION PARADE! One of the founders of the zombie renaissance, Max Brooks has sold millions of books in dozens of languages. His first book, *The Zombie Survival Guide*, not only singlehandedly jump-started the zombie prep subculture, its graphic novel companion, *Recorded Attacks*, debuted as #1 on the New Times Bestseller list. His second book, *World War Z*, (already a multi-million copy NYT bestseller in its own right) was adapted by Brad Pitt into one of the biggest blockbuster movies of 2013. Now Brooks takes the zombie genre to a whole new level with his new illustrated series *Extinction Parade*, featuring stunningly rendered art by super-star RAULO (Crossed, Captain Swing) CACERES. Building on the seed of his hit 2010 short story, Brooks has crafted a truly epic series. Not only does Extinction Parade's multilayered depth and meticulously researched detail raise it to the standard of his previous work, it also introduces fans to an entirely new, fresh and terrifying subgenre: Vampires Vs Zombies. As humans wage their loosing fight versus the hoards of the subdead, a frightening realization sets in with the secretive Vampire race: our food is dying off. This is the story of Vampires decent into all-out war with the mindless hungry hordes of the zombie outbreak as humanity tries to survive them all. Three species in mortal conflict. This is how a species dies. The collected edition contains the entire first chapter of this epic tale including *Extinction Parade* issues #1-5, and a blood-soaked cover gallery!

About: Jump on here, as the epic conflict continues right after Vol 1 with a super-sized battle issue! MAX BROOKS returns to the frightening world of zombies versus vampires in his groundbreaking follow up series: *Extinction Parade: War*! Well known for his breathtakingly original fiction, Brooks pushes the limits of the horror genre with his trademark meticulous research and vision for the next evolution in zombie storytelling. The subdead were always a joke to the aristocratic vampire race. Just a speck on the radar of their immortal lives, nothing worth even a moment's notice in their quest for self-gratification through the veins of their host, the human race. But at last they have been pulled from their ignorance into the reality of the world. The human race is facing extinction and should they succumb so too shall the vampires disappear beneath the waves of rotting walking dead. *Extinction Parade: War* opens the doors to the next violent chapter in Brooks' epic tale with an oversized issue starting the all-out battle for the survival of the races! The Extinction Parade: War, by Max Brooks

In the first volume of *The Extinction Parade*, we ticked off the countdown to war. When the 'sub-dead' first rose, the supposed super race of vampires rejoiced. They reveled in their rediscovered freedom as the walls of human civilization began falling. Too soon, however, they began to understand that the multiplying zombies didn't just threaten human civilization, but humanity itself. With their one food source now threatened, elation gave way to anxiety. Vampires began to hope and pray that the humans they had once looked down upon would eventually 'get their house in order' and save both species from extinction. When that salvation seemed impossible, anxiety gave way to fear, and that surging terror drove a previously parasitic race to take an active hand in its own destiny.

Now in Volume 2 of *The Extinction Parade*, the vampire species has declared war on the zombie menace. But is that declaration enough? Vampires might have spectacular physical gifts: strength, speed, agility, and remarkable ability to hyper-heal, but are they truly gifts or curses? Because Vampires have always lived at the top of the food chain, they've never had to build the kind of survival mechanism that humans have fought so hard to establish. Vampires have never organized or prioritized. They've never bothered with innovation or even education. Only now do they realize that they are little more than fleas on the back of a dying dog.

Can they discover, or rather, rediscover that long forsaken human survival mechanism before it's too late? Can they simply copy the human ways of war, or will they invent an entirely new species-specific martial art? And is there any truth to the rumor that somewhere, beyond the night's horizon, an entire vampire army is forming? These are the questions that will be answered in Volume 2 of *The Extinction Parade: War*.

THE AMERICAN COMIC BOOK CHRONICLES 1970S

Twomorrows Publishing

TwoMorrows Publishing is continuing their series of full-color hardcovers, *The American Comic Book Chronicles*, that covers the history of comics decade by decade and year by year, no WAYBAC machine or cosmic treadmill required.

This newest volume written by Jason Sacks and Keith Dallas covers the seventies, a time when relevance was the catch word in comics and the Comics Code power was diminished and in some cases outright ignored. The Golden and Silver Ages had their day, now it was the Bronze Age and the industry was in for some changes as a new wave of creators brought in new characters and new methods of distribution were realized.

In a year-by-year accounting of the 70s you will see the emergence of Len Wein and the creation of Wolverine, and with Dave Cockrum on the new *X-Men* and *Swamp Thing* with Bernie Wrightson. The coming of Conan by Roy Thomas and Barry Windsor-Smith, the introduction of Blade, and an epic run by Marv Wolfman on *Tomb of Dracula*. Denny O'Neil and Neal Adams revival of *Batman* with the introduction of Ra's al Ghul and Talia and a truly psychopathic Joker. There was the social relevance of O'Neil and Adams on *Green Lantern/Green Arrow*. The arrival of Jack Kirby at DC and the scope of his Fourth World shaking up the status quo at DC as does the arrival of Jeanette Kahn.

Revisions to the Comics Code that opens the floodgates for monsters and the supernatural long kept out of comics.

The Direct Market begins with DC Comics and Marvel sold nonreturnable to comic book dealers thanks to Seagate Distribution. This lead to indie publishers like with Aardvark-Vanaheim and *Cerebus*, *Fantasy Quarterly* and Warp Graphics' *Elfquest* showing the way and helping to diversify the industry.

This new volume of TwoMorrows Publishing's *American Comic Book Chronicles: The Seventies* forms a cohesive, linear overview of the entire landscape of comics' history a valuable resource for any comic book enthusiast particularly to those who lived through it and were part of the growth of the industry!

THE DEVILERS #1

Dynamite Entertainment

Dynamite Entertainment's *The Devilers* is not your typical exorcist story! When the young skeptic Mr. Lieb meets with Father Malcolm to rediscover "his faith," what he finds in turn is a jovially cynical, disenchanted, middle-age Irishman who enjoys a good debunking as much as a stiff drink. However, we quickly learn that first impressions can be misleading and all is not as it seems in Joshua Hale Fialkov's (*Bunker*, *Life After*, *I Vampire*) newest and completely original atypical twist to the exorcist genre!

Yes, you have the demons superbly drawn by Matt Triano in all their gory, gross detail and your quintessential papal lackey's who see the Devil's work around every corner. But besides the standard western elements we have come to expect in every exorcist story, along with Father Malcolm, Fialkov brings together a bizarre menagerie of demonic beast fighting, supernaturally powered characters taken from around the world and all walks of life that embark on what promises to be an epic, and nothing short of apocalyptic, battle!

As a personal fan of the horror genre, after reading the first issue of *The Devilers* all of my expectations were blown away! Without a doubt, this series will be a fantastic read for any fans of horror who crave the slightly campy, cult horror vibe. But with its fast-paced action, superb edge-of-our-seat writing, and Triano's beautifully classic art style, this series will also absolutely appeal to those who dig a good action-packed thriller and dynamic suspense story…with perhaps a bit of the supernatural thrown into the mix!

BARBARIAN LORD GN

(W/A/CA) Matt Smith

The classic *Conan the Barbarian* meets Mike Mignola's *Hellboy* by way of Norse mythology and Icelandic sagas in an epic graphic novel adventure of innocence wronged and vengeance taken! "A sword untried is a sword untested," says one raven to another as they set out to witness the fate of the finest farm in Garmrland and its owner, Barbarian Lord. When he is cheated out of his lands and banished, Barbarian Lord begins a quest for allies and for justice, encountering monsters, ghouls, gods, and mediocre poets along the way. Combining the rich traditions of the Vikings and Nordic lore with sword-and-sorcery-and slyly understated humor-this graphic novel introduces an original hero with classic flair, brought to life in Matt Smith's beautifully drawn, detailed, and action-filled black-and-white illustrations. WHO ARE THE DEVILERS?

THE EVIL IS REAL, AND THEY'RE THE ONLY ONES WHO CAN STOP THEM.
HAVE FAITH.

In ***THE DEVILERS****, Dynamite unleashes a group of exorcists from various religions that must team up to fight back the devil and preserve our plane of existence.*

DYNAMITE ENTERTAINMENT: Team books are a great tradition in comics, but can be tricky to get just right. When they sing, they sure do sing, to you, what are the essential elements of a good team book and how did you put those elements together for **THE DEVILERS**?
JOSHUA HALE FIALKOV: They're definitely tricky, and the past few years I've had a lot of experience with them, between *Ultimates*, *Ultimate X-Men*, *Hunger*, hell, even *I, Vampire* was a team book by the end, with a huge cast of characters. Even with *The Bunker*, I'm telling a story about five characters who can't get along, but desperately need each other. That, for me, is what is at the core of every great team dynamic. Finding characters that complement each other in all the right ways, while also sowing discontent, because of just how different they all are.

DE: Did you look to any previous, classic team books for inspiration when it came to putting the scripts together?
JHF: It came from a bunch of different places. The original idea was in the vein of the old team up movies - *Magnificent Seven*, *Dirty Dozen*, and so on, but, as we worked on it, the gang at Dynamite was really interested in looking at some of the best team comics of all time, books like *X-Men*, *Legion*, and so on. So, we're definitely playing in that realm.

DE: THE DEVILERS team consists of a Catholic Priest, a Jewish Rabbi, an Islamic Mullah, a Hindu Brahmin, and a Buddhist Monk. Was any one character harder or easier to write, from a theological perspective, than any other?
JHF: The book is a fantasy story, using some of the more fantastical elements of the world's different religions, and I'm using as much of my own personal knowledge of each of the characters faiths and some of the more obscure stuff that each one has. I will say though, that writing the atheist character whose sort of stuck along for the ride has been the most fun. He's having his own faith tested in a similar way to everyone else's. It's a bit of a commentary on just how close minded we all are, no matter what your faith or creed.

DE: Where did you find inspiration in crafting the ultimate evil that they face?
JHF: I wanted to really mash up an ultimate hell - A place that's not your typical chrome and fire and cloven hoofs. I think [series artist] Matt Triano has really done a completely brilliant job at delivering on that promise. This is hell, and these are demons you've never seen before. They're grotesque and haunting, and, well, like your worst nightmares.

DE: Society has moved farther away from religion and embraced more science and fact, so where's the balance in presenting a book that pits religion against evil?
JHF: Yeah, that's always the thing. And it's about being respectful of the various faiths while still telling an exciting, fun story. Every religion has its own version of exorcism and exorcists, each has their own version of Hell, even if that means no hell at all. I guess what I'm saying is that presenting something that's fair and balanced is a goal, but so is blowing the doors off all of them to create something much, much worse.

CHASTITY RETURNS!

THIS IS MOST DEFINITELY NOT YOUR FATHER'S VAMPIRE!

Dynamite continues its exploration into the CHAOS! *universe with* CHASTITY *#1!*

DYNAMITE ENTERTAINMENT: What are your thoughts on the revival of the *CHAOS!* universe and *CHASTITY*'s place in it?

MARC ANDREYKO: Everything old is new again in this reboot culture and these characters have retained their resonance. The cool thing about Chastity is that, in terms of the *CHAOS!* universe, she is the most relatable. She isn't an Egyptian vampire goddess or a demonic mass murderer; she is a kid thrown into circumstances which she struggles to understand. And once she does, she has an unending desire to avenge her family and put an end to vampires – one at a time if need be.

DE: *CHASTITY* is set in the 1980s, a distinctive era in look and attitude. How does the time period play a role in Chastity's story?

MA: *Rachel Rising* by Terry Moore is probably the best horror comic out there right now. And thematically, there are similarities with mysteries of the past, discovering what the leads have become, and struggling to fight against pure evil. *CHASTITY* is much more "big movie" in tone as opposed to *Rachel Rising*'s Lynchian creeping terror, but both are anchored by strong females and their journeys against the horror around them.

DE: How do you think the existing *CHAOS* fan base - still rabid after all these years – will view the direction of the new *CHASTITY*?

MA: I hope they dig it. I'm not changing things for changes' sake, I'm taking what was done before and hopefully adding a few more layers of depth and complexity, especially on the emotional side. But fear not, there will be a ton of bloody vampire action!

TOM CLANCY'S SPLINTER CELL: ECHOES #1 (of 4)

Marc Laming cover

Nathan Edmondson (w) Marc Laming (a/c)
FC • 32 pages • $3.99 • Teen+ • 7/2

Sam Fisher, once a Splinter Cell—a clandestine operative operating in the shadows of the NSA—is now retired. His enemies, however, are not. Haunted by dreams and memories of his past, he struggles to put his life back together. But when a mysterious terrorist organization called KROWE begins pursuing targets around the globe, Sam's expertise is needed to uncover their endgame and stop them before the deadly plot unfolds.

"Echoes" takes place between the events of Splinter Cell Conviction and Splinter Cell Blacklist. The series bridges the gap between the two games with a realistic, original story that sets the tone for the opening events in Splinter Cell Blacklist!

From Nathan Edmondson, the acclaimed writer of ULTIMATE IRON MAN, WHO IS JAKE ELLIS and THE ACTIVITY and Marc Laming, artist behind EXILE ON THE PLANET OF THE APES, THE RINSE, THE ACTIVITY and Dynamite's own KINGS WATCH comes a story of the Sam Fisher you only thought you knew.

She knows she can't go to the police about the nuclear holocaust she has seen in the minds of others because there's no evidence and they've hidden their tracks too well. BENSON'S CUCKOOS GN

(W/A/CA) Anouk Ricard

From the author of *Anna & Froga* comes a wry, offbeat whodunnit that centers on office life. Richard thinks he's in luck when he snags a job at the cuckoo clock factory, but things start to go wrong right off the bat. First of all, there's his boss, who doesn't seem to have the strongest grip on reality and has an odd penchant for silly hats. Then there are his coworkers, who are alternately evasive and idiotic when asked about anything pertaining to actually getting work done. Finally, there's Guy, the employee Richard's replacing, who supposedly quit, but whose family has just appeared on national TV pleading for his safe return. It's all adding up to a very strange workplace, and when the company goes on a retreat, everything spools quickly out of control. (STK644325) (C: 0-0-1)

MOOMIN: THE COMPLETE LARS JANSSON COMIC STRIP VOLUME 7 HC

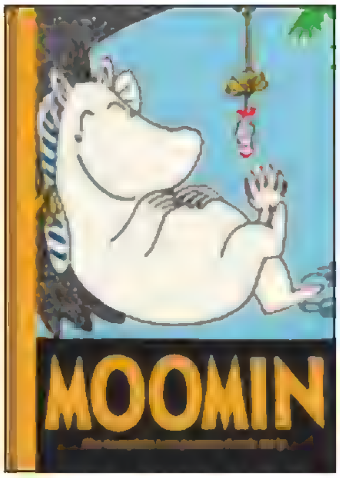
(W/A/CA) Lars Jansson

The Moomins rebel once more against hibernation, receive an inheritance they're unprepared for, find colonization a bit of a bore, and decide once and for all that seashells are much prettier than gold nuggets. With familiar jabs aimed at Moomin leg length and somewhat less familiar ones aimed at capitalism and colonial politics, Jansson's comics are timeless treasures for the whole family. (STK474184)
HC, 8.5X12, 112pgs, B&W $19.95

MOOMIN: THE COMPLETE LARS JANSSON COMIC STRIP VOLUME 6 HC

(W/A/CA) Lars Jansson

After the multifaceted Tove Jansson quit the daily grind of the newspaper comic strip, the reins were picked up by her younger brother, Lars, and, without missing a beat, the transition from Tove to Lars was seamless. The delightful and gentle skewering of life's foibles continued with such antics as Moomin becoming a vegetarian; the genie from a magic lamp bringing stolen diamonds; a railway through Moominvalley turning into a roller coaster, and, of course, hijinks with international spies invading Moominvalley. (STK435042)
HC, 8.5X12, 88pgs, B&W...........$19.95



MOOMIN: THE COMPLETE LARS JANSSON COMIC STRIP VOLUME 8 HC

(W/A/CA) Lars Jansson

Sniff is causing trouble with another of his get-rich-quick schemes, Moominmaiden falls in love with the inspector's bad boy nephew, and Moominmamma is offering up plum cake to whosoever should need it. As always, the experiences of the Moomin family are poignant, melancholy, and strangely wise, with just a dash of drolly funny and a pinch of slapstick. Without a doubt, Lars Jansson's *Moomin* Volume Eight is a treat for the whole family. (STK613596)

GAST

by Carol Swain

$22.99 / 176 pgs / BW / 7.5 x 10.25

Set in rural England, Carol Swain's Gast is the rare kind of contemporary graphic novel that critics are imagining when they exult over the promise of the art form — a philosophically mature vision, uniquely executed by an artist wholly in control of her craft. In *Gast*, Swain's main character Helen's inner life is slowly revealed through a mixture of naturalistic detail and phantasmagoric occurrences.

"To say that the American superhero comic book medium is somewhat biased towards portraying most heroes as Caucasian is something of an understatement. Although serious strides have been made towards diversity in recent years, the truth is, most superheroes are still predominantly white as milk. And those that aren't are not really headlining their own comic books, at least, sadly, not for extended periods of time. Decades ago, though, there was an Asian superhero, even if readers didn't really know he was Asian: The Green Turtle, a hero revived for writer Gene Luen Yang's *The Shadow Hero*."

He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy — an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack — who has already killed Bod's family. Neil Gaiman's Newbery Medal-winning *The Graveyard Book* reaches new heights in this glorious adaptation by P. Craig Russell. Each chapter is illustrated by a different luminary from the comic book world, including Kevin Nowlan, P. Craig Russell, Tony Harris, Scott Hampton, Galen Showman, Jill Thompson, and Stephen B. Scott, to create an imaginatively diverse and yet cohesive interpretation of Neil Gaiman's luminous novel. (STK642530)

BEATLES WITH AN A HC

These are the first beats of the Beatles' career as only legendary rock cartoonist Mauri Kunnas could tell them. The cover depicts John, Paul, George, and Ringo crossing the street *Abbey Road* style, but the street's in Hamburg's seedy Reeperbahn red-light district, and the flip cover adds lost Beatles Pete Best and Stu Sutcliffe to the mix. Kunnas chronicles the band from Ringo's birth (against a backdrop of the Luftwaffe shelling Liverpool) through the release of their hit, "Please Please Me"/"Ask Me Why." Focusing on the band's pre-fame days in a sly and irreverent style (and not shying away from Brian Epstein's fixation upon John), Kunnas makes liberal use of corny in-jokes and hokey wordplay, but it's all done in good fun. LENA FINKLE'S MAGIC BARREL GN

(W/A/CA) Anya Ulinich

Anya Ulinichs long-awaited second work of fiction, the graphic novel *Lena Finkle's Magic Barrel*, evokes Louis C.K.'s sensibilities and Amy Winehouse's longing and anguish — often in the same frame — as Ulinich turns her sharp eye toward the strange, sometimes unmooring world of "grown-up" dating. After fifteen years of marriage, 37-year-old Lena embarks on a string of online dates and receives a brutally eye-opening education in love, sex, and loss while raising her two teenage daughters. With references to Bernard Malamud and Chekhov along the way, this is a smart, funny story told beautifully through Ulinich's text and drawings. (STK643173) (C: 0-1-0)

ROY THOMAS PRESENTS: SHEENA, QUEEN OF THE JUNGLE VOLUME 1 SLIPCASE EDITION

(W) Roy Thomas (A) Robert Webb, Alex A. Blum

She may still be everyone's favourite yellow-tressed leopard-skin-clad Jungle Jane but, having made her first appearance almost 80 years ago (courtesy of Will Eisner and 'Jerry' Iger in the British mag *Wags* #1), Sheena, Queen of the Jungle could be forgiven for being somewhat less spritely swinging through the trees righting wrongs and wielding her knife. In 1938, she made it Stateside with her first showing in *Jungle Comics* #1 where she settled happily in every issue (plus a decade in her own title) until April 1953. There have been other incarnations, of course, but it's this classic material that strikes at the very heart of Good Girl Art! (STK642968) (C: 0-1-1)

THE LEAGUE OF EXTRAORDINARY GENTLEMEN III: CENTURY: THE COMPLETE EDITION HC

(W) Alan Moore (A/CA) Kevin O'Neill

The nineteenth century, expiring with a flourish of Moriarty and Martians, has left the division of Military Intelligence commanded by Mina Murray in a state of disrepair. While she and her lover Allan Quatermain have achieved a measure of eternal youth, recruiting new talents such as the trans-gendered immortal Orlando, the ghost-finder Thomas Carnacki and the gentleman thief A.J. Raffles to replace their deceased or missing colleagues. Now it is the early years of a new and unfamiliar century, and forces are emerging that appear to promise ruin for the Murray group, the nation and indeed the world, even were it to take a hundred years for this apocalyptic threat to come to its disastrous fruition. From the occult parlours and crime-haunted wharfs of 1910, through the criminal, mystical and psychedelic underworlds of 1969 to the financially and culturally desolated streets of 2009, the disintegrating remnants of Miss Murray and her League must combat not only the hidden hand of their undying adversary, but also the ethical and psychological collapse accompanying this new era. And a lot of things can happen in a *Century*. (STK643009) (C: 1-0-2) **NOTE:** Not available in the U.K. (May Purchase from U.K. Vendor)

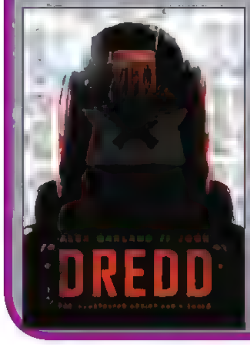
All right, they're no ordinary family. And this is no ordinary book, with stories spanning decades, a whole chapter written as light opera, a Christmas episode, and an all-new 24-page comic bringing the Bojeffries up to the present day. Detailing the events leading up to the Whitechapel killings and the cover-up that followed, *From Hell* is a meditation on the mind of a madman whose savagery and violence gave birth to the 20th century. The serialized story, presented in its entirety in this volume, has garnered widespread attention from critics and scholars and has been adapted into a major motion picture. DREDD: ILLUSTRATED MOVIE SCRIPT & VISUALS GN

Rebellion / 2000 AD

Whether you've been a long-time reader of *2000 AD*'s Judge Dredd or just a recent fan of the film, now is definitely the time to be a Dredd fan. The recent movie adaptation proved to be a hit for most die-hard comic fans and has helped to garner new fans into the Dredd universe. For those fans of the film *Dredd*, Rebellion now offers a unique look behind the film with a very unique collector's graphic novel.

This book delves deeper into the movie then just a typical graphic novel adaptation. The famed artist, Jock, was involved in the production of the film very early on, designing much of the film's style. In addition to concept art, Jock also adapted the entire Dredd script into a comic book/storyboard hybrid which was used exclusively for reference during the filming of the movie. This unique adaptation has never been previously published to the public until now and is finally being released in an all-in-one companion book for Dredd fans. While you read the sequential comic pages, you can also read along with the accompanying script pages Jock drew from, plus a variety of Jock's concept drawings ranging from cityscapes to firearms.



In an age where comic book adaptations from films often feel sub-par and over-done, the *Dredd: Illustrated Movie Script & Visuals* graphic novel goes much further to make it stand out as its own fan experience. Rarely do fans get to experience their favorite films in a format which so closely relates to the original production. Whether you're a Judge Dredd comic fan, just a fan of the film, or a fan of filmmaking in general, this book is a one-stop reference for all.

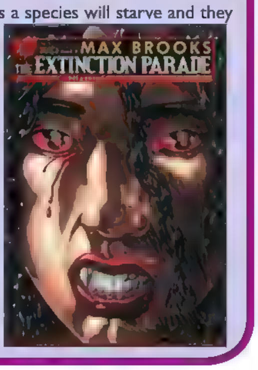
EXTINCTION PARADE: WAR #1 / EXTINCTION PARADE TP VOLUME 1

Avatar Press

From Avatar Press and Max Brooks, writer of the critically acclaimed *New York Times* best-selling novel and feature film *World War Z*, comes a follow up to the Vampire, Zombie, Human war *Extinction Parade*. In the first volume of *Extinction Parade* (being collected in a trade paperback in this very issue of *PREVIEWS*!) we see a Vampire race that has sat at the top of the food chain for generations.

Instead of a species of dominant Vampire hunters keen on stamping their heel against Humanity and the rest of the world we are treated to a race of complacent aristocratic Vampires whom have grown weak without any true threat to their position in the food chain. Its not until a zombie apocalypse strikes that they are taken completely aback and witness the first true threat to their race in generations. If the zombies force humanity to extinction then Vampires as a species will starve and they too will go extinct.



Its take a little while but the Vampires have opened their eyes to the reality of their situation and are ready to start taking the battle to the zombie hordes. If they can tip the scales in Humanity's plight against a zombie apocalypse they'll secure their future food source. Will they be up to the task or have years of living in luxury taken their toll on the Vampire race leaving them unequal to the task?

BACK ISSUE MAGAZINE #75

Twomorrows Publishing

Today we seem to be seeing a rebirth of the indie publishing movement – Abstract Studios going strong, Cartoon Books and Jeff Smith with a new series, and Gary Reed bringing back Caliber. We see publishers like BOOM!, IDW, Image, and Dark Horse offer titles that years ago would have been self-published and through them get a wider audience.

As we read about in *Back Issue* #75 from TwoMorrows publishing the 80s was a high point in indie publishing whether it was the self-publishing begun in the seventies by Dave Sim with *Cerebus* or *Elfquest* by Richard and Wendy Pini or by new publishers like Dark Horse, Kitchen Sink Press, and Pacific Comics, there was more than what the big two offered for decades.

In an interview with Richard and Wendy Pini we get a chance to see the birth of the wolfriders and what was to become Father Tree Press as the history and future of *Elfquest* is discussed. There is also an article of Dave Sim and *Cerebus* as we get to look at this creation from its early life as a semi-*Conan* parody to a series of satire, social commentary and philosophy.

Dave Scroggy reminiscence's about the early days of Pacific Comics as one of the leaders in creator's rights. The talent Pacific had working on their books was legend....ary and was the template for companies like first Comics, Eclipse and many others.

If you were with Dark Horse at their beginnings you may remember *Boris the Bear* but it was *Dark Horse Presents* #1 featuring Blass Cross on the cover but it will be remembered for introducing us to Concrete. A great interview with *Concrete* creator Paul Chadwick provides us with a lesson on the creative process as well as the practical side of the business as well as how comics can be and are used for propagandizing a viewpoint.

This is only the tip of what is offered in this issue of Back Issue and this magazine is a must have if you find the history of comics to be just as interesting than the comics you see in your shops on Wednesdays.

STAR TREK #35

IDW Publishing

In my opinion, actor John de Lancie brought one of the most memorable *Star Trek* rogues to life in the pilot episode of *Star Trek: The Next Generation*. An omnipotent being known only as Q who often used his powers irresponsibly and for his own amusement. He was a being with the power to destroy entire solar systems with snap of the fingers or if he felt like celebrating he could snap those same fingers, create a mariachi band from nothingness, start dancing, and handing out cigars to the crew.

You never really knew what was going to happen with Q and that was the fun of the character. He knew every conceivable way to get under Captain Picard's skin even going as far as to steal Vash, one of Picard's few love interests.

Luckily for us Q didn't limit his harassment of Starfleet commanding officers to just Jean-Luc Picard. He visited space station Deep Space Nine to harass then Commander Ben Sisko and dropped in on the *Voyager* crew several times even dragging Captain Janeway into a Q civil war where each combatant was as powerful as Q himself.

In IDW's *Star Trek* #35 by scribe Mike Johnson, Q is going to get the opportunity to harass a different Starfleet Captain for the first time as Q matches wits with the original Captain of the Enterprise, James T. Kirk. Like Q, Kirk has a mischievous side having cheated to win the "unbeatable" Kobayashi Maru scenario in Star Fleet Academy. Captain Kirk doesn't believe in a no win scenario. He defeated the genetically engineered Khan Noonien Singh, outwitted the Greek god Apollo, and has had fisticuffs with a Gorn.

Be sure to beam to your local comic shop this July and pick up Star Trek #35 and see Kirk tangle with one of the most powerful beings this side of the Alpha Quadrant!

THE RED BARON: THE HISTORY OF RICHTHOFEN'S FLYING CIRCUS GN

(W/A/CA) Wayne Vansant

In *The Red Baron*, graphic artist and author Wayne Vansant illustrates the incredible story of Manfred von Richthofen, whose unparalleled piloting prowess as a member of the Imperial German Army Air Service made him a World War I celebrity both in the air and on the ground. Vansant beautifully depicts the fearsome intelligence and mid-flight awareness that would earn Richthofen eighty documented air combat victories over the Western Front in the halcyon days of military aviation. Richthofen died young under controversial circumstances, but the Red Baron's astonishing skill and tactical acumen lived on far long after his death and helped usher in a new type of warfare: war in the air. GOTHIC IN COMICS & GRAPHIC NOVELS SC

This book explores the connections between comics and Gothic from four different angles: historical, formal, cultural and textual. It identifies structures, styles and themes drawn from literary gothic traditions and discusses their presence in British and American comics today, with particular attention to the DC Vertigo imprint. Part One offers an historical approach to British and American comics and Gothic, Part Two argues for an holistic model based around the symbols of the crypt, the spectre and the archive, and Part Three combines cultural and textual analysis, concluding with case studies of two of the most famous gothic archetypes in comics: the vampire and the zombie. DIABOLIQUE #22
Few fears in the history of the human condition, legitimate or irrational, amount to those tied to the overwhelming experience of being pregnant. The uniquely female undertaking of carrying of a soon-to-be-new-life within oneself conjures all kinds of dread about the radical transformation of one's own life — not to mention, one's own body — that comes along with it. *Diabolique* charts the development of genre cinema and literature's most provocative depictions of pregnancy, starting with classics like *Rosemary's Baby* and *It's Alive*, before moving to contemporary knocked-up knockouts such as Julien Maury and Alexandre Bustillo's *Inside*. ROCKET RACCOON!
Rocket Raccoon is all business as he holds up an enormous futuristic cannon, carried into battle on the shoulder of his friend and ally Groot! Rocket wears a slick orange and black spacesuit that contrasts nicely with his intricately sculpted brown fur, and the tree branch texture of his friend adds yet another element to this fantastic presentation.

In 2012 the comic book company relaunched several titles, shifting some characters into different books and updating some for a modern audience. More than anything, it provided a perfect jumping on point for new readers. Now the characters are brought to life as never before based on concept artwork by superstar artist Adi Granov. Joining his previously released teammates the Hulk, Black Widow, Captain America, and Hawkeye is the Asgardian warrior **THOR!** In the Marvel Now Thor continues to fight the good fight in his own book as well as with his fellow Avengers that are gathered in this ARTFX+ series as Earth's Mightiest Heroes. Always eager for glorious combat, the Asgardian is captured in a relaxed battle stance, turned sideways and holding out his hammer Mjolnir in front of him. Thor wears his distinctive Marvel Now costume that combines a black tabard with silvery armor, an ornate helmet, and a sweeping red cape! Thor stands nearly 8 ½ inches tall (in the ARTFX+ 1/10th scale) on his included magnetic display base. Whether by himself or displayed alongside the other Avengers in the Marvel Now ARTFX+ collection Thor is ready to lead the fight!

Star Trek: Voyager fans: Now your cosplay can be perfect! Just add this gleaming, screen-accurate metal badge with its unique magnetic clasp to your uniform, and you're set. With the restored molds we were able to replicate the prop's size and shape exactly. Once we had the design of the original matched, we took the whole thing a step further – rendering the replica in gold- and silver-finished metal. A Woman in Comics:

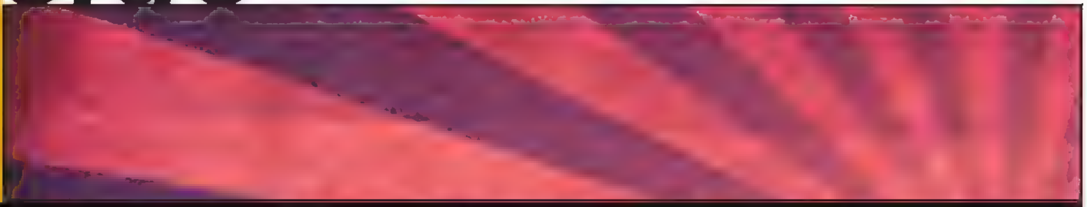
The Kelly Sue DeConnick Interview

Kelly Sue DeConnick has worked in the comics industry for the past decade, writing comics and translating Korean *manwha* and Japanese *manga* into English. She's probably best known for her work on Marvel's *Osborn: Evil Incarcerated* mini-series, co-writing *Richard Castle's Deadly Storm* with Brian M. Bendis and, of course, her current hit series *Captain Marvel*.

Along the way she has earned a large and faithful fan base (men and women alike) with her work, and has also seen the role that women play in comics — on the page and behind-the-scenes — change over the years... and not always for the best. In honor of ***PREVIEWS***' Women in Comics month, we spoke with Kelly Sue who had something to say about that subject and much more...

FLIPside



***PREVIEWS*: Tell us first how you got started creating comics...**

Kelly Sue DeConnick: I started writing about comics — doing some stringer reportage and then writing catalog entries for *Artbomb.net*. From there I moved on to writing the English adaptations of Japanese and Korean comics (which I did for seven years), then short stories, co-writing and limited series. My first ongoing title was 2012's *Captain Marvel* for Marvel comics.

***P*: This month's *PREVIEWS* theme is "Women in Comics". Can you talk about the current state of female representation in comics? Both from a creator standpoint and a character standpoint?**

KSD: Women are WILDLY under-represented both on the production side and on the page. This is not just a comics problem, it's an cultural problem.

To my knowledge, there are no reliable statistics to which we can refer for our industry, but numbers were just released for last year's films citing only 15% of the protagonists as female — and 30% of the speaking roles! That's depressing enough on its own but add to that the fact that that number is actually DOWN from 16% ten years ago and then it's rage-inducing.

Little girls learn how to identify with male protagonists early on because they have no choice — they don't get the opportunity to see themselves actively reflected in culture often enough, so they learn to identify with the male hero. We don't ask that of boys. In fact, we discourage it. Women are low-status — who would want to identify DOWN?

So because of all this nonsense we have phenomena like the stage every girl goes through when she too refuses to identify down — the "I'm one of the boys" or "I don't trust other women" phases. As sad as those things are, they're the logical extensions of how we've taught our girls to value themselves. And, of course, we get men and boys who have never been encouraged to cross-identify, which leads directly to objectification.

If you're not sure what that is, a really easy thing to do is to replace a woman in a story with a Sexy Lamp. If the story still basically functions, then that woman has been objectified. Chances are that she's there not as a CHARACTER, but as a PLOT DEVICE. She's there to decorate the set or to be wanted. She exists to motivate or reward another character (probably male) who has "agency" — meaning, they have a desire and will of their own; they're full-realized characters.

All this stuff… it's bad for us. It's bad for us as an art form, as a culture; and if you hear nothing else, hear this: it's bad for us as a business.

P: What steps do you feel can be taken to get more women creating and reading comics?

KSD: Doing away with the myth that women don't create or read comics would be a great place to start.

There remains this pervasive notion that we don't have more women readers because superhero comics are 90% of our industry in this country and superhero comics don't and can't appeal to women.

It's simply not true. There is nothing inherently masculine about heroism, or the pulp aesthetic or power fantasies — believe me, I'm a five foot tall woman. I can teach any man in any room about power fantasies — I promise.

Superheroes aren't inherently masculine any more than opera, Shakespeare or myth.

There remains this pervasive notion that we don't have more women readers because superhero comics are 90% of our industry in this country and superhero comics don't and can't appeal to women.

It's simply not true.

P: Now let's talk about some of your work. For new readers tell us about your Image Comics series* Pretty Deadly *that follows Death's daughter as she rides through a mythological Wild West?

KSD: It's sort of a… VERY grim fairy tale. It's epic. We just completed the first arc that sets Deathface Ginny out in the world and we're developing the second arc as we prepare to go to script.

P: Also for Image you'll be writing a new series called Bitch Planet. What will we see in this upcoming comic?

KSD: *Bitch Planet* is a riff on the sci-fi and women-in-prison genres of the 1970s. We're just prepping to go to script on this as well and if it hits the page the way I'm planning, it'll be brutal. I keep telling the team we're going for "mean funny."

Story-wise, it's about a prison in a time when women can be shipped off-world for being "non-compliant;" when being contrary is a crime.

P: Finally,* Captain Marvel *has really blasted off again with you at the helm. What is it like taking Carol Danvers into outer space?

KSD: Yeah — everything about Carol wants to go up — head up, chin up, heart up. She's a very bright and traditional heroine in that way — everything about her is trembling to shoot off into the sky. So we decided to see what would happen if we let her go.

WOMEN IN COMICS: THE MINI-INTERVIEWS

As we celebrate "Women in Comics" this month, we present four capsule interviews—excerpts from longer discussions—speaking with four top female creators. And when you're finished here, be sure to log-on to ***PREVIEWS*** world.**com** for full interviews with these and many more talented creators!

MAYU SHINJO

MY JOB Mangaka

As a Japanese comic artist, she is not only responsible for writing and drawing her work, but she leads a team of art assistants who support her. She is team manager, teacher, and lead artist.

MY WORKS

Ai Ore! (Vol. 1: FEB111189)
Demon Love Spell (Vol. 1: SEP121239)

***PREVIEWS*: What elements in shojo manga do you think are appealing to female readers?**

Mayu Shinjo: I think sexiness and glamour are things that are always appealing. Even if I draw a "cute" male character, he should always have some sex appeal and charm. That never changes.

***P*: Many of our readers are interested in learning how to become "mangaka". Would you give them some advice?**

Mayu: Let's see. Becoming an assistant to a mangaka is the best way to learn the trade. Other than that, you need to draw every day. If you continue doing that... well, drawing is something we all have to keep doing on a consistent basis. So, in order to get ahead, you have to draw even more. You'll hardly ever see a person who draws, say, once every six months making a debut. It must be a routine. If you publish a volume of your work once every two months or so... that is a lot of work, you see. It's very hard. If you can do that on a regular basis, no matter how bad your artwork may be now, you can definitely make your debut.

HOLLY GOLIGHTLY

MY JOB Writer/Artist; VP BroadSword Comics

In addition to coloring, lettering and overseeing production on Jim Balent's series *Tarot, Witch of the Black Rose*, Holly also covers all duties on her own creation, the romantic/comedy vampire manga, *School Bites!*

MY WORKS

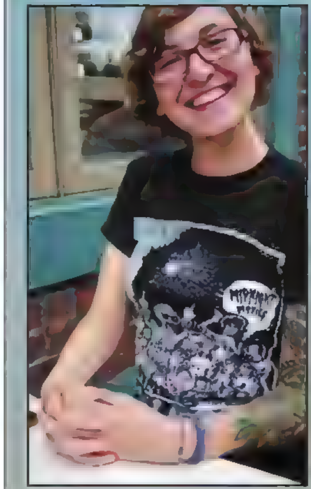
School Bites: Independent Studies Collection TP (FEB130883)
Magic of Sabrina the Teenage Witch TP (AUG110817)

***PREVIEWS*: In your opinion, how has the comic book industry evolved in terms of gender?**

Holly Golightly: The industry is a business, and if an individual wishes to work in a business, it should be passion of it that drives them... I started my first company at 21 — again — I don't think about my gender when running a biz — just my work and wanting to get it out to the public in a fair and happy way. Entering the Comic Book Industry at 30... yeah there were a lotta guys and a few gals... I guess it's still that way. The evolution comes with breaking away from the mainland. For these new evolutions to thrive I'd ask the stores and the readers to support them... Then you'll see a whole buncha variety flourish!

***P*: Did you have a mentor or a hero in industry?**

Holly: Frank Thorne was my hero growing up. He drew what I looked like and the character acted the way I wished I could. When I decided to follow my dream as a comic book creator he was one of very few that embraced me with the fun and fantasy that comics mean to me. He is and will always be my Wizard! But business-wise, when I was 21, I read a book called *"Growing a Business"* by Paul Hawkins... it was a Holistic approach to entrepreneurship. I high recommend it to those running any industry!



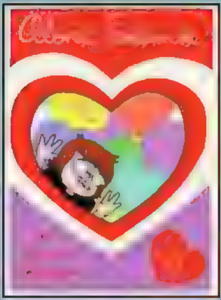
LIZ PRINCE

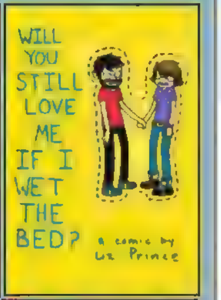
MY JOB Writer/Artist

Liz has been an autobiographical comic artist for the last 15 years, self-publishing comics and 'zines, and has had work published by BOOM! Studios and Top Shelf Productions.

MY WORKS

Alone Forever GN (DEC131293), *Will You Still Love Me If I Wet the Bed? GN* (JUL053179), *Adventure Time: Marceline & The Scream Queens Vol. 1 TP* (MAR130946)





***PREVIEWS*: How did you get interested in comics? How did you find your way into working with larger companies?**

Liz Prince: I honestly can't remember a time in my life where I wasn't obsessed with comics. From the age of 5 I knew I wanted to work with cartoons in some way, and when I discovered comic books at the age of 8 I knew I had discovered my medium. Self-publishing was the stepping-stone that I used to get my work into the hands of publishers like Top Shelf; I believe it shows dedication to comics beyond wanting recognition, which is important for a publisher to see.

***P*: What stereotypes do you see surrounding women in comics? How could people of all genders go about breaking those stereotypes?**

Liz: I don't know if I see what I would call a "stereotype" in play, as much as there is an assumption that our experience, as female creators, is distinctly different from those of our male counterparts. I'm looking forward to the day when mention of me as a creator is not preceded the delineation that I am a woman, because that implies that my work is different or that my fan base is different or that my overall experience is different because of my gender; all of which may be true, but until a male gets asked how gender has affected his experience in the industry, then it's not an equal playing field.

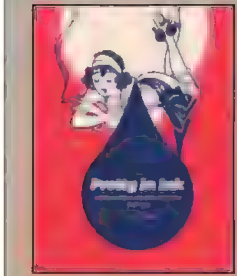
KRISTY VALENTI

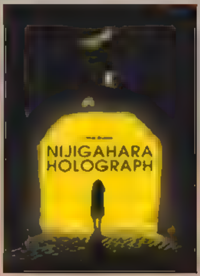
MY JOB Editorial Associate

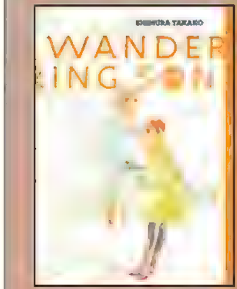
Kristy is an Editorial Associate at Fantagraphics Books, and has also edited and written for *The Comics Journal*.

MY WORKS

Pretty in Ink: North American Women Cartoonists 1896–2013 (SEP131173), Nijigahara Holograph HC (DEC131161), *Wandering Son Vol. 6 HC* (NOV131088)







***PREVIEWS*: How long have you been working with sequential art? What titles, companies, and creators have you worked with over your time in comics?**

Kristy Valenti: I started working for Fantagraphics in 2004. Also, I wrote a column, mostly about self-published and small press comics, for comiXology, from 2007–2012. Given that my background is in comics history, criticism, and archiving, I've worked with writers like Trina Robbins, Patrick Rosenkranz, Bob Levin, Marc Sobel, and Bill Schelly.

***P*: What do you feel the benefits are for the larger industry by having a better mix of genders at all levels of comics production? Did you have a mentor or a hero in industry?**

Kristy: The pat answer is to say just hire the most qualified people (Fantagraphics has gotten bigger since I started working here, so I work with a lot more women, like our publicist Jacq Cohen, our marketing manager Jen Vaughn, and designers like Keeli McCarthy.) Karen Berger and Diana Schutz were very influential. Chynna Clugston used to do little comics about her editor at the time, Jamie S. Rich, in the backs of *Blue Mondays*. It made being an editor seem like an attainable goal.

THE AMERICAN COMIC BOOK CHRONICLES 1970S

Twomorrows Publishing

TwoMorrows Publishing is continuing their series of full-color hardcovers, *The American Comic Book Chronicles*, that covers the history of comics decade by decade and year by year, no WAYBAC machine or cosmic treadmill required. This newest volume covers the 1970s, a time when relevance was the catch word in comics and the Comics Code's power was diminished if not outright ignored. The Golden and Silver Ages had their day; now it was the Bronze Age and the industry was in for some changes as a new wave of creators brought in new characters and new methods of distribution were realized.

In a year-by-year accounting of the 70s, you will see the creation of Wolverine and Swamp Thing, the return of *X-Men* and the coming of Conan, the revival of *Batman* and the social relevance of *Green Lantern/Green Arrow*, the arrival of Jack Kirby and Jeanette Kahn at DC, revisions to the Comics Code, and the launch of the Direct Market. This new volume forms a cohesive, linear overview of th[illegible]

BARBARIAN LORD GN

Clarion Books

If you quest for a saga most epic, harken ye to a tale of hard lands and harder men, of slashing swords and stabbing verse, of honor stolen and of honor reclaimed. In the mists to the north of the border between "Sword" and "Sorcery" you will find *Barbarian Lord*. Rumored to be part troll, this warrior-bard avenges his honor with a two-handed battle axe (of the exceptionally bloody sort) and scourges his foes with carefully crafted insults (of the epic-poetry sort). Towering deeds, dauntless verse, and wholesale slaughter accompany this barbarian's barbarian as creator Matt Smith spins up an uncompromising world of bone, snow, and old Gods. The echoes of Icelandic and Norse myth ring throughout the pages of this work, while beast men, skull lords, and witches blight our hero's homestead. The literary shadows of other great champions -- Beowulf, Conan, and Kull -- race alongside Barbarian Lord and he stains the deep snows crimson with his vengeance. He battles the sea and its monsters, faces trolls and wraiths, and stands proudly as a master of the mead hall. All bend knee and hail! Barbarian Lord!

DREDD: ILLUSTRATED MOVIE SCRIPT & GN

Rebellion / 2000 AD

Now is definitely the time to be a Judge Dredd fan. The recent movie adaptation *Dredd* proved to be a hit for most die-hard comic fans and has helped to garner new fans into the Dredd universe, and Rebellion now offers a unique look behind the film with a very unique collector's graphic novel.

This book delves deeper into the movie then just a typical graphic novel adaptation. The famed artist, Jock, was involved in the production of the film very early on, designing much of the film's style. In addition to concept art, Jock also adapted the entire Dredd script into a comic book/storyboard hybrid which was used exclusively for reference during the filming of the movie. This unique adaptation has never been previously published to the public until now and is finally being released in an all-in-one companion book for Dredd fans. Whether you're a Judge Dredd comic fan, just a fan of the film, or a fan of filmmaking in general, this book is a one-stop reference for all.

SPARKS TP

Sideshow Productions

In an age where costumed superheroes are even more prevalent in comics as well as the big screen, there are still indie creators finding new ways to approach the genre and *Sparks* has managed to find a unique voice in both mediums.

Despite his lack of formal training, Sparks is a masked vigilante driven to remove crime from his city during the 1940's. Eager to win the fight against crime, Sparks teams up with other costumed vigilantes but suddenly things go horribly wrong. Sparks soon realizes there is danger and a dark-side to the world of vigilantism, tearing his life apart. Though Sparks finds himself with few friends and allies left, he can't help but be a hero when he's needed most and he will stop at nothing to solve the super-powered conspiracy plaguing his town.

Sparks is a masked hero story wrapped in hard-boiled detective noir mystery. Christopher Folino will show readers of the graphic novel a fresh take on superheroes that rests comfortably between *Spider-Man* and *Sin City*.

EXTINCTION PARADE: WAR #1 / EXTINCTION PARADE TP VOLUME 1

Avatar Press

From Max Brooks, writer of the critically acclaimed *New York Times* best-selling novel and feature film *World War Z*, comes a follow up to the Vampire, Zombie, Human war *Extinction Parade*. In the first volume of *Extinction Parade* (being collected in a trade paperback in this very issue of *PREVIEWS*!) we see a Vampire race that has sat atop of the food chain for generations.

We are treated to a race of complacent aristocratic Vampires whom have grown weak without any threat to their position in the food chain. When a zombie apocalypse strikes they witness the first true threat to their race in generations. If the zombies force humanity to extinction then Vampires as a species will starve and they, too, will go extinct.

It's taken a little while but the Vampires have opened their eyes to the reality of their situation and are ready to start taking the battle to the zombie hordes. If they can tip the scales in Humanity's plight against a zombie apocalypse they'll secure their future food source. Will they be up to the task?

STAR TREK #35

IDW Publishing

John de Lancie brought one of the most memorable *Star Trek* rogues to life in the pilot episode of *Star Trek: The Next Generation* as an omnipotent being known only as Q who often used his powers irresponsibly and for his own amusement. You never really knew what was going to happen with Q and that was the fun of the character. He knew every conceivable way to get under Captain Picard's skin. Luckily for us Q didn't limit his harassment of Starfleet commanding officers to just Jean-Luc Picard.

In IDW's *Star Trek* #35, Q is going to harass a different Starfleet Captain for the first time as Q matches wits with the original Captain of the *Enterprise*, James T. Kirk. Like Q, Kirk has a mischievous side having cheated to win the "unbeatable" Kobayashi Maru scenario in Starfleet Academy. Captain Kirk doesn't believe in a no-win scenario – and neither does Q.

Be sure to beam to your local comic shop this July and pick up *Star Trek* #35 and see Kirk tangle with one of the most powerful beings this side of the Alpha Quadrant!
